

Component Spotlight

Day of Surgery (DOS) Cancellations component

About the component:

This component allows end users to monitor and quantify the number of DOS cancellations and reasons for cancellations - such as patient unfit for surgery, a lack of inpatient beds, etc – to assist with the development of improvement strategies and the tracking of their effectiveness at a specialty-and doctor-level.

Who it's for: Elective Surgery Coordinators, Theatre Nurse Unit Managers, Clinical and Department Managers and Directors as well as Service Improvement or Project Officers.

Where you'll find it:

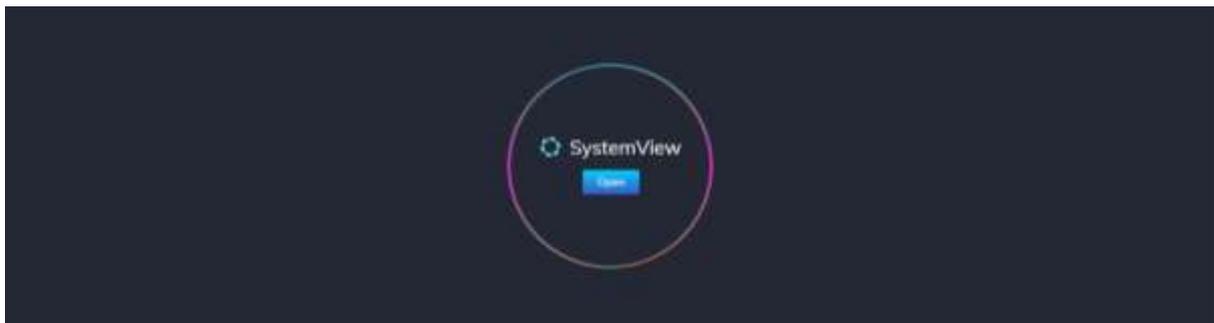

SystemView > Explore > Surgery > Theatre Effectiveness > DOS Cancellations.

Data refresh rates:

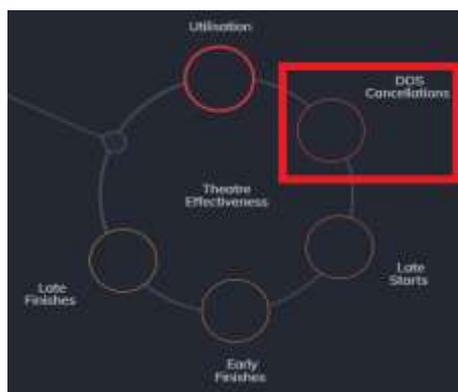

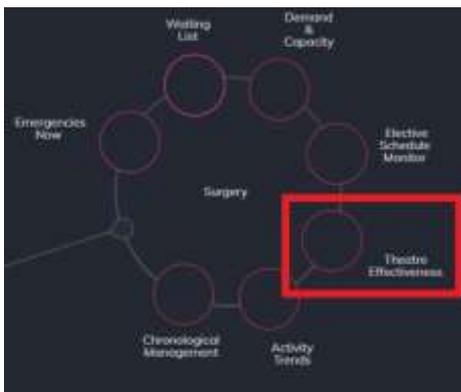

The data within this component updates every morning, trended weekly.

Step 1.

Sign in to SystemView using your current hospital credentials and password

Step 2.

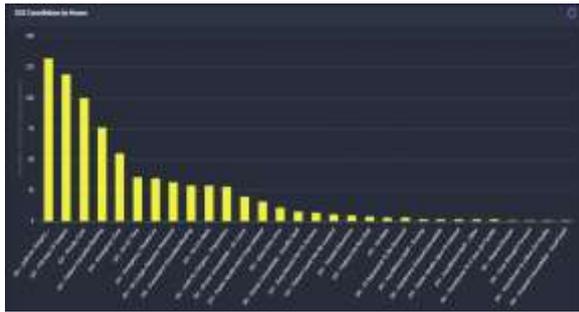

Navigate to
Explore >
Surgery >
Theatre
Effectiveness >
DOS
Cancellations.

Step 3.

Apply drop-down filters **at the top of the page to refine the data.**

Step 4.

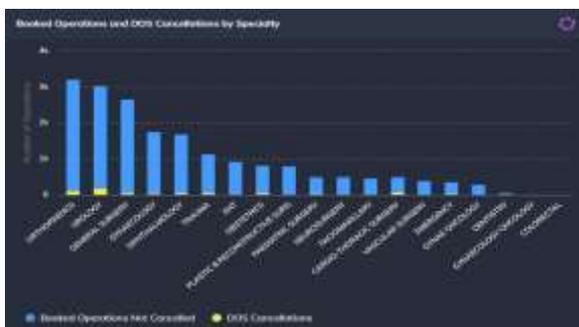

DOS Cancellations by Reason chart displays a high-level summary of theatre day of surgery (DOS) cancellations based on cancellation reason.

Select a cancellation reason to analyse the data at trend level.

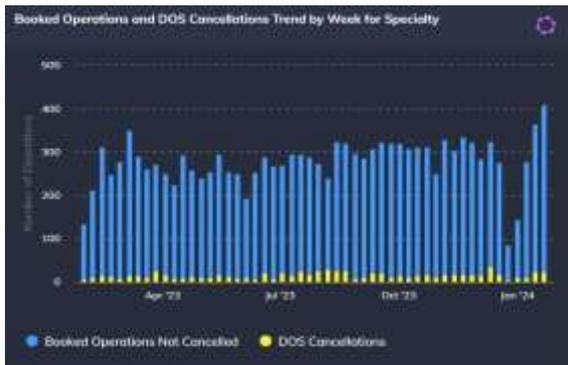

Booked Operations and DOS Cancellations Trend by Week chart displays a high-level summary of the previous 52 weeks booked operations not cancelled and day of surgery (DOS) cancellations per week.

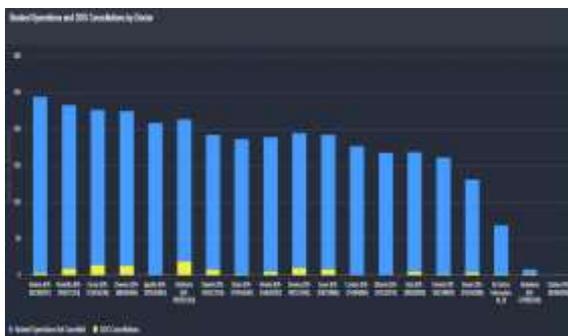

Booked Operations and DOS Cancellations by Specialty chart displays a high-level summary of booked operations and day of surgery (DOS) cancellations based on Specialty.

Select a specialty to analyse the data at trend level.

Booked Operations and DOS Cancellations Trend by Week for Specialty chart displays a high-level summary of the previous 52 weeks of booked operations and day of surgery (DOS) cancellations based on selected Specialty.

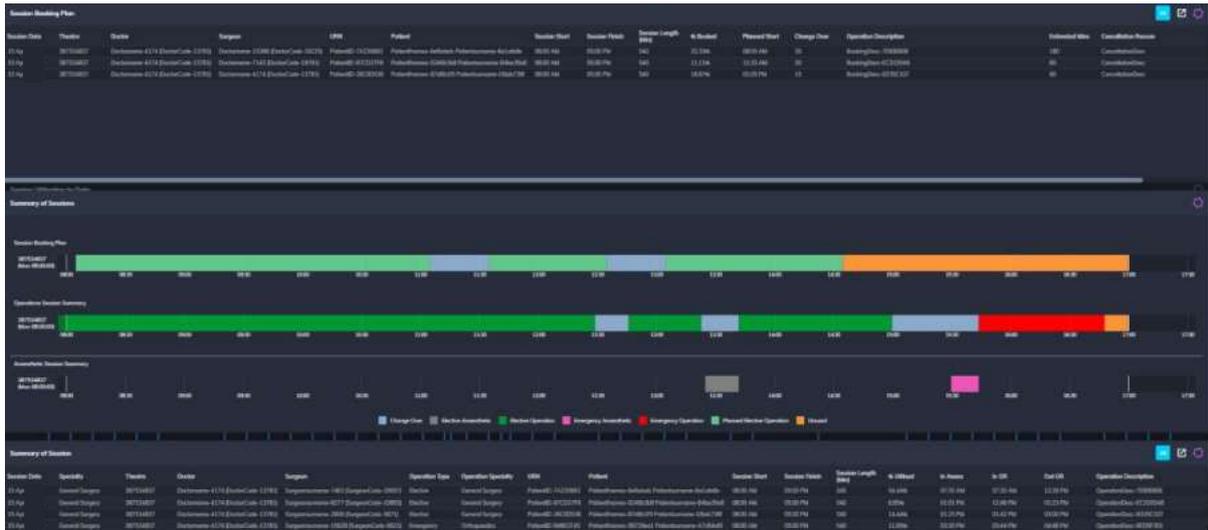

Booked Operations and DOS Cancellations by Doctor chart displays a high-level summary of booked operations and day of surgery (DOS) cancellations based on individual doctor allocations.

Select a doctor to generate a further layer of analysis at Doctor level.

Booked Operations and DOS Cancellations by Date chart displays a high-level summary of booked operations and day of surgery (DOS) cancellations on a daily basis for the selected doctor.

Select a date (in yellow) to generate a visualisation to compare the planned session timeline with cancellation reasons against actual activity.

Session Booking Plan, Summary of Sessions and Summary of Session (tables display when a session is selected from the preceding chart) These tables provide a comprehensive analysis of the planned procedures, actual procedure activity (including timestamps) and summary of the session.
