

Component Spotlight

Waiting List > Dynamics component

About the component:

This component allows end users to investigate and quantify whether the elective surgery demand is increasing overall and at a specialty-, category- and doctor-level. Active monitoring standards can be set to notify users of weeks with high numbers of additions and changes in the rolling net additions. Furthermore, investigations as to whether each team's additions and removals are in balance can be performed and demand variation identified and monitored.

Who it's for: Elective Surgery Coordinators, Business Managers or Clinical Department Managers, Service Improvement and Project Officers.

Where you'll find it:

SystemView > Explore > Surgery > Waiting List > Dynamics.

Data refresh rates:

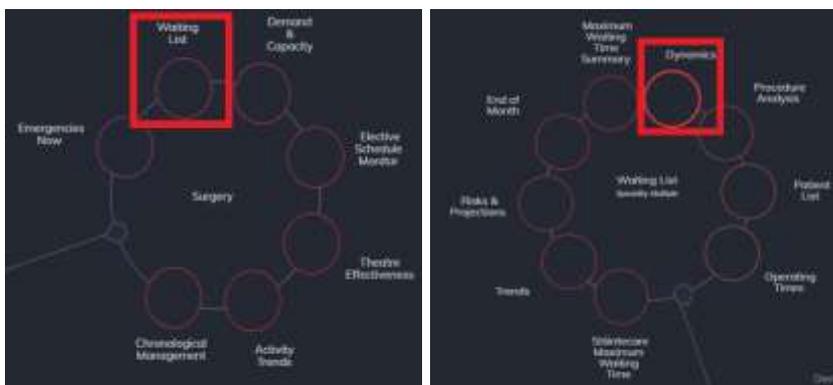

The data within this component updates every morning.

Step 1.

Sign in to SystemView using your current hospital credentials and password

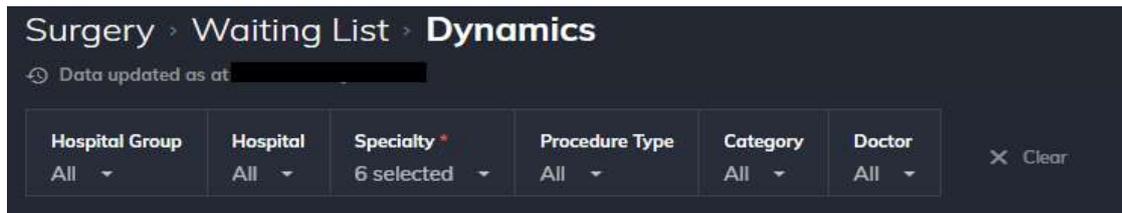

Step 2.

Navigate to Explore > Surgery > Waiting List > Dynamics.

Step 3.

Apply drop-down filters **at the top of the page to refine the data.**

Waiting List Additions and Removals Patient List – select the button/s located alongside the filters at the top of the component. Patient details includes an exportable table of elective surgery patients that updates daily and once activated, can be saved and referenced in **Interact – MyLists or MyHubs.**

Step 4.

Waiting List Additions chart displays the number of additions to the Elective Surgery waiting list on a weekly basis, this chart also includes an overall trend line over time.

Select a point in the chart – waiting list details (week of XX) includes an exportable table of waiting list additions for selected date and once activated, can be saved and referenced in **Interact – MyLists or MyHubs**

Waiting List Removals chart displays the number of removals from the Elective Surgery waiting list on a weekly basis, this chart also includes an overall trend line over time.

Select a point in the chart – waiting list details (week of XX) includes an exportable table of waiting list removals for selected date and once activated, can be saved and referenced in **Interact – MyLists or MyHubs**

Waiting List Additions and Removals chart displays the number of additions and removals to the Elective Surgery waiting list on a weekly basis, this chart overlays the previous charts to understand the overall trend.

Surgery Waiting List Dynamics chart displays an above and below the line analysis of the difference in points between the weekly additions and removals to the Elective Surgery waiting list, this chart displays the weeks where additions outweigh the number of removals, (and vice versa) and includes a rolling average trend over the previous 13 weeks.
