Component Tiles

Tile	Screenshot	Explanation															
Pod Demand by Emergency Department Arrival Half Hour		Displays the number of patients streamed to the treatment area for each half hour of the day. Patients waiting to be streamed into the area are also counted. There are also 2 supporting trendlines derived from analysis of historical data: <ul style="list-style-type: none">Average Demand for a Similar DayThe average number of expected streamed patients, specific to weekday and season.Upper Control (Top 15.9% of Days)The number of expected streamed patients for the top 15.9% busiest days.															
Emergency Department Status		Displays the number of patients across each treatment area of the Emergency Department and groups them by categories such as Category 1 Patients, Waiting, In Area and Empty Beds.
